Lusanda Mtembu

Summary

A motivated final-year Computer Science student with a growing interest in viticulture and the world of wine. I bring proven team leadership experience, combined with strong process optimization skills and a proven aptitude for learning complex systems, to the art of hospitality at The Tasting Room Cedar. My analytical background provides a framework to not only learn deeply but also to articulate the stories behind each wine, connecting the vineyard's craft to the guest's glass with a unique and informed perspective.

Experience

Jan 2022-Jun 2025
